Q1. Which of the following best expresses your view of the proposed Bill? (Please note that this question is compulsory.)

Partially opposed

Q1. Which of the following best expresses your view of the proposed Bill? (Please note that this question is compulsory.)

Please explain the reasons for your response.

I support all pupils getting equal access to opportunities, and this should be applied to all school trips. However, my experiences of 'residential outdoor education' have been pretty dismal and certainly not enjoyable, rewarding or valuable. This bill must take caution, if it is instigated, to not make these trips compulsory in any way. Surely it would be far better to legislate that funding for all school trips be available for all pupils at all ages, whether it's a £2 bus to a museum, a week-long residential trip to the outdoors or an educational residential trip to a city that focusses on indoor activities. Outdoor education is not the be all and end all.

Q2. Do you think legislation is required, or are there other ways in which the proposed Bill's aims could be achieved more effectively? Please explain the reasons for your response.

The bill's aims would be achieved more successfully by funding any school trip regardless of the purpose

Q3. The proposed Bill will cover residential outdoor education provision for local authority and grant-aided schools only. Which of the following best expresses your view that independent schools or any other education establishments should not be covered by this obligation.

Fully supportive

Please give reasons for your response.

Independent schools should provide funding for pupils

Q4. The intention is that the obligation to ensure that residential outdoor education is provided would fall on those who are responsible for arranging the provision, e.g. education authorities and managers of grant-aided schools. Which of the following best expresses your view of this proposal?

Partially supportive

Funding

Q5. Which of the following best expresses your view of how residential outdoor education experiences should be funded?

By parents/carers, with costs being covered by public funding where children meet criteria for financial support (e.g entitlement to free school meals)

Financial Implications

Q6. Any new law can have a financial impact which would affect individuals, businesses, the public sector, or others. What financial impact do you think this proposal could have if it became law?

some increase in costs

Standard/ Quality of provision

Q7. Which of the following best expresses your view on the proposal for a quality framework to ensure the quality of the education provision of outdoor centres?

Neutral (neither support nor oppose)

Q8. Which of the following best expresses your view that the age range of 12 – 16 is appropriate for participation in the residential outdoor education experience?

Partially supportive

Please give reasons for your response, including whether you think other age ranges would be more appropriate.

Appropriate age range so long as it is not compulsory for pupils to go

Equalities

Q9. Any new law can have an impact on different individuals in society, for example as a result of their age, disability, gender re-assignment, marriage and civil partnership status, pregnancy and maternity, race, religion or belief, sex or sexual orientation.

What impact could this proposal have on particular people if it became law? If you do not have a view skip to next question.

Please explain the reasons for your answer and if there are any ways you think the proposal could avoid negative impacts on particular people.

No Response

Q10. How might equity of provision for all be ensured, regardless of socio-economic status? Please give reasons for your response.

Funding should be accessible for all, including children from large families who may not meet funding criteria but whose families cannot afford an outlay of hundreds of pounds at once

Sustainability

Q11. Any new law can impact on work to protect and enhance the environment, achieve a sustainable economy, and create a strong, healthy, and just society for future generations.

Do you think the proposal could impact in any of these areas? [If you do not have a view then skip to next question]

Please explain the reasons for your answer, including what you think the impact of the proposal could be, and if there are any ways you think the proposal could avoid negative impacts?

No Response

General

Q12. Do you have any other additional comments or suggestions on the proposed Bill (which have not already been covered in any of your responses to earlier questions)?
