

Proposed Schools (Residential Outdoor Education) (Scotland) Bill

Introduction

A proposal for a Bill to ensure that young people have the opportunity to experience residential outdoor education.

The consultation runs from 29 April 2022 to 22 July 2022

All those wishing to respond to the consultation are strongly encouraged to enter their responses electronically through this survey. This makes collation of responses much simpler and quicker. However, the option also exists of sending in a separate response (in hard copy or by other electronic means such as e-mail), and details of how to do so are included in the member's consultation document.

Questions marked with an asterisk (*) require an answer.

All responses must include a name and contact details. Names will only be published if you give us permission, and contact details are never published – but we may use them to contact you if there is a query about your response. If you do not include a name and/or contact details, we may have to disregard your response.

Please note that you must complete the survey in order for your response to be accepted. If you don't wish to complete the survey in a single session, you can choose "Save and Continue later" at any point. Whilst you have the option to skip particular questions, you must continue to the end of the survey and press "Submit" to have your response fully recorded.

Please ensure you have read the consultation document before responding to any of the questions that follow. In particular, you should read the information contained in the document about how your response will be handled. The consultation document is available here:

Aim and approach - Note: All answers to the questions in this section may be published (unless your response is "not for publication").

Q1. Which of the following best expresses your view of the proposed Bill? (Please note that this question is compulsory.)

Fully supportive

Q2. Do you think legislation is required, or are there other ways in which the proposed Bill's aims could be achieved more effectively? Please explain the reasons for your response.

legislation seems most straightforward way to ensure this is progressed

Q3. The proposed Bill will cover residential outdoor education provision for local authority and grant-aided schools only. Which of the following best expresses your view that independent schools or any other education establishments should not be covered by this obligation.

Fully supportive

Q4. The intention is that the obligation to ensure that residential outdoor education is provided would fall on those who are responsible for arranging the provision, e.g. education authorities and managers of grant-aided schools. Which of the following best expresses your view of this proposal?

Partially supportive

Please explain the reasons for your response.

Support as long as resources allocated to allow this to be arranged and not expected to be absorbed by current staff

Funding

Q5. Which of the following best expresses your view of how residential outdoor education experiences should be funded?

In full by the Scottish Government

Financial Implications

Q6. Any new law can have a financial impact which would affect individuals, businesses, the public sector, or others. What financial impact do you think this proposal could have if it became law?

no overall change in costs

Please explain the reasons for your answer, including who you would expect to feel the financial impact of the proposal, and if there are any ways you think the proposal could be delivered more cost-effectively.

I am not sure how to answer this as an isolated question. I am not sure if resources elsewhere could be moved etc or if there is any surplus. It is therefore impossible to answer if this will create increased costs to public.

Standard/ Quality of provision

Q7. Which of the following best expresses your view on the proposal for a quality framework to ensure the quality of the education provision of outdoor centres?

Unsure

Q8. Which of the following best expresses your view that the age range of 12 – 16 is appropriate for participation in the residential outdoor education experience?

Neutral (neither support nor oppose)

Please give reasons for your response, including whether you think other age ranges would be more appropriate.

P7 (so age 11?) would also be fine, I think. I know this often happens in my area anyway. I think if that goes ahead, there is less need for a further trip. I think upper limit of age 16 is good as this would be hopefully a very positive experience for all and would be good to ensure s4 leavers are included.

Equalities

Q9. Any new law can have an impact on different individuals in society, for example as a result of their age, disability, gender re-assignment, marriage and civil partnership status, pregnancy and maternity, race, religion or belief, sex or sexual orientation.

What impact could this proposal have on particular people if it became law? If you do not have a view skip to next question.

Please explain the reasons for your answer and if there are any ways you think the proposal could avoid negative impacts on particular people.

Privacy is an issue on these trips - I remember hating that toilet situation when I was young going on these things. As long as attention is paid to ensuring privacy can be maintained, this should not be a barrier. It is not a compulsory trip but should be felt open to as many as would like to attend.

Q10. How might equity of provision for all be ensured, regardless of socio-economic status? Please give reasons for your response.

Presumably full public funding (inc for equipment where necessary, although that should be means tested somehow).

Sustainability

Q11. Any new law can impact on work to protect and enhance the environment, achieve a sustainable economy, and create a strong, healthy, and just society for future generations.

Do you think the proposal could impact in any of these areas? [If you do not have a view then skip to next question]

Please explain the reasons for your answer, including what you think the impact of the proposal could be, and if there are any ways you think the proposal could avoid negative impacts?

No Response

General

Q12. Do you have any other additional comments or suggestions on the proposed Bill (which have not already been covered in any of your responses to earlier questions)?
