Q1. Which of the following best expresses your view of the proposed Bill? (Please note that this question is compulsory.)

Neutral (neither support nor oppose)

Please explain the reasons for your response.

I think this Bill is another false promise. In recent years so many outdoor residential centres have closed or LAs have proposed closures in order to make necessary savings. How will this be remedied? How will teaching staff be paid for this? Will this impact on school budgets/ staffing? Will there be necessary

Q1. Which of the following best expresses your view of the proposed Bill? (Please note that this question is compulsory.)

adjustments so ALL can access this? In recent years schools have struggled to accommodate this for one year group, I find it hard to believe it could work for more. Money should be invested in local opportunities that children could access without the residential / transport/ staffing issues.

Q2. Do you think legislation is required, or are there other ways in which the proposed Bill's aims could be achieved more effectively? Please explain the reasons for your response.

Local initiatives and community investment. No legislation.

Q3. The proposed Bill will cover residential outdoor education provision for local authority and grant-aided schools only. Which of the following best expresses your view that independent schools or any other education establishments should not be covered by this obligation.

Unsure

Q4. The intention is that the obligation to ensure that residential outdoor education is provided would fall on those who are responsible for arranging the provision, e.g. education authorities and managers of grant-aided schools. Which of the following best expresses your view of this proposal?

Fully opposed

Please explain the reasons for your response.

Like many initiatives introduced at Government level, the LAs would then struggle to finance this.

Funding

Q5. Which of the following best expresses your view of how residential outdoor education experiences should be funded?

In full by the Scottish Government

Please explain the reasons for your response. (If you consider Scottish Government funding should be provided to local authorities, please set out the mechanism for such funding, for example through block grant, ring fenced funding etc.)

Ring fenced funding that has no impact on any current funding.

Financial Implications

Q6. Any new law can have a financial impact which would affect individuals, businesses, the public sector, or others. What financial impact do you think this proposal could have if it became law?

a significant increase in costs

Standard/ Quality of provision

Q7. Which of the following best expresses your view on the proposal for a quality framework to ensure the quality of the education provision of outdoor centres?

Fully supportive

Q8. Which of the following best expresses your view that the age range of 12 – 16 is appropriate for participation in the residential outdoor education experience?

Partially supportive

Equalities

Q9. Any new law can have an impact on different individuals in society, for example as a result of their age, disability, gender re-assignment, marriage and civil partnership status, pregnancy and maternity, race, religion or belief, sex or sexual orientation.

What impact could this proposal have on particular people if it became law? If you do not have a view skip to next question.

Please explain the reasons for your answer and if there are any ways you think the proposal could avoid negative impacts on particular people.

The 12-16 age group have many things going on their lives. Careful considerations and supports would have to be considered for all individuals to access the service.

Q10. How might equity of provision for all be ensured, regardless of socio-economic status? Please give reasons for your response.

No cost to families.

Sustainability

Q11. Any new law can impact on work to protect and enhance the environment, achieve a sustainable economy, and create a strong, healthy, and just society for future generations.

Do you think the proposal could impact in any of these areas? [If you do not have a view then skip to next question]

Please explain the reasons for your answer, including what you think the impact of the proposal could be, and if there are any ways you think the proposal could avoid negative impacts?

No Response

General

Q12. Do you have any other additional comments or suggestions on the proposed Bill (which have not already been covered in any of your responses to earlier questions)?
